

After the workshop

Animation speed in the workshop activities is too fast to easily grasp without opportunity to reduce speed
Appreciated the bonus and extra resource materials provided. Thank you.

Dani was very clear

Dani was very kind

Don't have the program on my computer since admin needs to set up so got nothing out of course. Didn't
Excellent and exactly what I was looking for. A good example of how to run an online course. Thanks.

Excellent work in terms of the course designing. Thank you!

Great class and great instruction- Thanks Rich!

Great instructor

Great Job! It was pretty straightforward especially given the walk-through at the beginning.

Great job. Fairly casual and yet very thorough. Thanks Rich.

Great! It was time well spent... which I can't say for every time I get on Zoom!

Having files ready to work on is very helpful rather than spending more time inputting data. It would be
Hey! Didn't actually attend the course because after waiting in the zoom call for over 10 minutes past
I appreciate this and the other many workshops you offer.

I appreciated the reminders that everyone is working at their own pace. I would have preferred an intro
I arrived late after the intro and demo

I attended the workshop in person. The workshop and main facilitator were great

I don't think we ever got around to talking about publishing podcasts. I would like to learn more. If there
I enjoyed this session

I find when the instructors in your courses talk

I found this course to be so informative. I learned a lot in a short amount of time

I found this workshop extremely frustrating. It did not suit my learning style at all. I would prefer in person
I had already trialed NVivo so I could not download NVivo 12. Otherwise

I have never felt more welcome at a Zoom workshop than how I felt at this event. Their efforts to greet
I have problems with the UVic license

I liked that when you shared the screen it was only visible to the instructors and not the whole class

I really appreciate this hybrid workshop

I thought it was a great use of my time. Thank you.

I thought it was well done. The instructors were very accommodating and knowledgeable.

i would be interested in learning more about Tableau

I would love to do another canva class!

I'm grateful. My wife

I've really appreciated everything I've learned. thanks so much!

It is a good method of classroom teaching.

It is nice to know that there is additional help when needed after the workshop. Thank you.

It was a fantastic class which I would love to come again and have more such experiences.

It was a great workshop and I learned so much. Thank you!!!

It was very well organized

It's very frustrating to listen to others work through problems and not see what's going on. If you want :
Just a big thanks you to Jessica. She has been super helpful.

Look forward to taking more courses.

Make the process slightly easier!

Maybe have the instructor show a fully developed project to participants at the end? That way there is
More of a warm welcome and intro at the start

Nope! I thought it was great! Thanks very much. I feel much more confident about using the tool now.

Nope! Thanks

Only to say thank you

Really well done! Instructors were knowledgeable and enthusiastic to help me and answer all of my questions

Rich and Dani were very helpful and worked together extremely well to ensure everyone's questions and Rich did a great job. I look forward to when we can do these courses in person.

Super appreciated for the Helping to Free Learn and education.

Thank you so much! I thought the material and the instructors were very friendly and helpful. Had this v

Thank you very much for all of your help and in instructing this workshop! I really appreciate that these

Thank you very much for all of your help! I really enjoyed the format and the workshop!

Thank you very much for preparing this useful material

Thank you! Appreciate the time that you took to answer questions

Thank you! Appreciated the instructor's patience and flexibility to use the time in a way that supported

Thank you! Sharon was great. I really appreciate them providing us their email so we can follow up with

Thanks again for the excellent workshop today

thanks for the good resources and have a nice day :)

Thanks for the great workshop.

That was a lot of fun and very informative

That's a pretty good course

The experience was excellent. HTML and CSS become easier now.

The

The workshop was good and I hope you keep it for next students.

The workshop was great. I'm amused that this survey is through google docs

There was a lot of things that I did not know. So maybe some more basic language for those of us v

This class was great. Looking forward to other ones. Thank you.

This was wonderful! Every experience I have with the Digital Scholarship Commons has been inspiring a

UVic is lucky to have Rich! He is an amazing instructor - communication and instruction skills are impre:

Wonderful course. Really helped me to finally use macros successfully and learn about dashboards

Would appreciate a copy of the video recording as I wasn't able to access

Would love to see an advanced GIS course

Would love to see more excel based classes especially further macro and pivot tables

· nice to join another EXCEL data analysis workshop that covers more on large sets of data like for example
· at the start time there was no sign of any other participants - not sure if given an incorrect zoom link or
· introduction that addressed simple questions for beginners - while more advanced students could continue

and chat with me really helped to reduce how intimidated I felt since I didn't have any experience with

separation using breakout rooms so others don't have to hear what they can't see would be wonderful!

on with the workbook. I spent some time waiting for my turn to ask yet another simple question.

the topic. I was also so impressed with how generous the hosts were with their time and expertise. I wa

s attending remotely and they took the time to answer my questions in detail. Thank you so much to yo

our staff!
